

LifeSphere[®] Clinical

Link Clinical Operations and Data Management via Unified Cloud Architecture

LifeSphere Clinical Unifying Clinical Processes

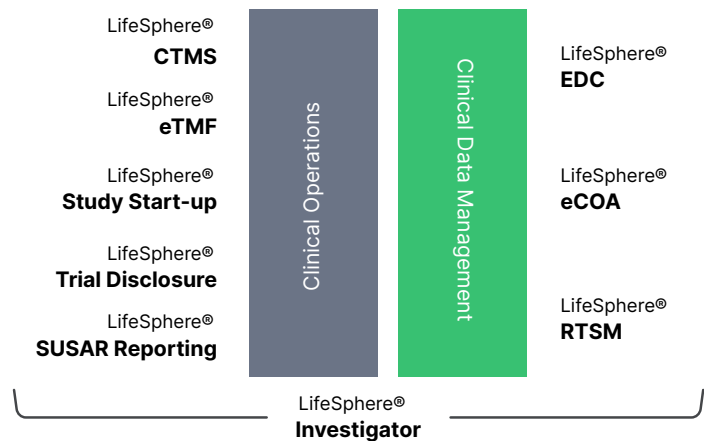

LifeSphere Clinical is a digital platform that spans clinical operations and clinical data management, providing a multi-tenant cloud and mobile-based workspace for all drug development activity. Our platform provides life sciences organizations with a single source of truth, enabling efficient master data management, improved data quality and standardization.

Powered by Nava[®] Industry-Leading Automation

ArisGlobal's proprietary cognitive engine, **Nava**, is woven into the fiber of LifeSphere, extending across our portfolio of solutions to automate repetitive manual tasks and assist human decision-making. Nava enables clients to reduce cycle times, improve quality and provide cost efficiencies.

Next-Generation Clinical Solutions to Significantly Increase Trial Efficiency

LifeSphere Clinical is comprised of purpose-built solutions for mission critical clinical tasks across operations and data management. Built on open architecture, LifeSphere Clinical ensures easy connectivity with any existing IT environment.

LifeSphere Clinical

Innovative Solutions for More Efficient, Cost Effective Clinical Development.

Clinical Operations

LifeSphere CTMS

Versatile clinical trial management solution that enables organizations to plan, track and control all activities related to the set-up, conduct and closeout of trials.

LifeSphere eTMF

Global electronic trial master file solution for managing, accessing and archiving all trial-related documents.

LifeSphere Study Start-Up

Application for managing site start-up content and tasks, unified with LifeSphere EasyDocs for greater data visibility.

LifeSphere Trial Disclosure

Disclosure solution enabling firms to efficiently manage trial registration and result reporting to public registries.

LifeSphere SUSAR Reporting

Solution for automating the electronic distribution of adverse event reporting in clinical trials.

LifeSphere Investigator

Centralized access to all trial data, helping sponsors reduce the time, cost and effort of managing study sites.

Delivering Seamless Unification With:

LifeSphere EasyDocs

Enterprise document management system offering a centralized repository and ensuring business process continuity across the drug development lifecycle.

LifeSphere Regulatory Platform

LifeSphere clinical offers out-of-the-box unification with the LifeSphere Regulatory platform, improving the flow of document and data throughout the organization.

Clinical Data Management

LifeSphere EDC

Unified electronic data capture software solution that delivers sponsors and CROs a cost-effective way to capture, manage and report clinical research data regardless of trial phase and complexity.

LifeSphere eCOA

Intuitive solution that allows patients to directly enter clinical outcome data on a mobile device, giving sponsors higher data quality and accurate timestamps.

LifeSphere RTSM

Clinical management solutions automating the tracking of clinical trial supplies throughout the supply chain

About ArisGlobal

ArisGlobal is the visionary technology company that's transforming the way today's most successful Life Sciences companies develop breakthroughs and bring new products to market. Our end-to-end life sciences platform, LifeSphere®, integrates our proprietary Nava® cognitive computing engine to automate all core drug development functions. Designed with a long-term perspective that spans more than 30 years, LifeSphere® boosts efficiency, ensures compliance, delivers actionable insights, and lowers total cost of ownership through multi-tenant architecture.

Headquartered in the United States, ArisGlobal has regional offices in Europe, India, Japan and China.
