LifeSphere® NavaX

## The Next Generation Cognitive Computing Engine to Expedite R&D Digitization for Life Sciences

Bring together advanced automation, Gen AI, and intelligent data analytics to revolutionize your business and drive better end-to-end outcomes.

LifeSphere NavaX offers a customer-centric approach to digital transformation, supercharging LifeSphere solutions with next-generation innovations tailored to meet the unique needs of the Life Sciences sector.

From Robotic Process Automation, Machine Learning, and Natural Language Processing to Large Language Models, Generative AI, and advanced analytics, LifeSphere NavaX leverages the most cutting-edge technologies to drive innovation across your Safety, Regulatory, and Medical Affairs teams.
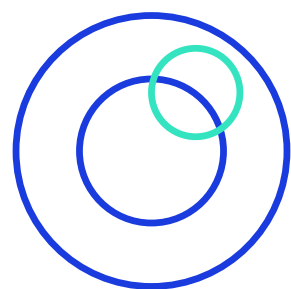

Drive significant operational efficiencies, accelerate time-to-insight, and empower data-driven decisions by ensuring that your business is equipped with the latest advancements to achieve sustained success and transition into a more intelligent and automated future.
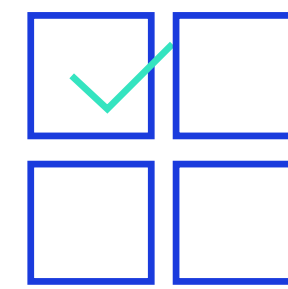

LifeSphere NavaX Foundation

Efficiency
Drive major efficiency gains by automating routine tasks and processes – for example, via automated data extraction, coding, and knowledge graphing.
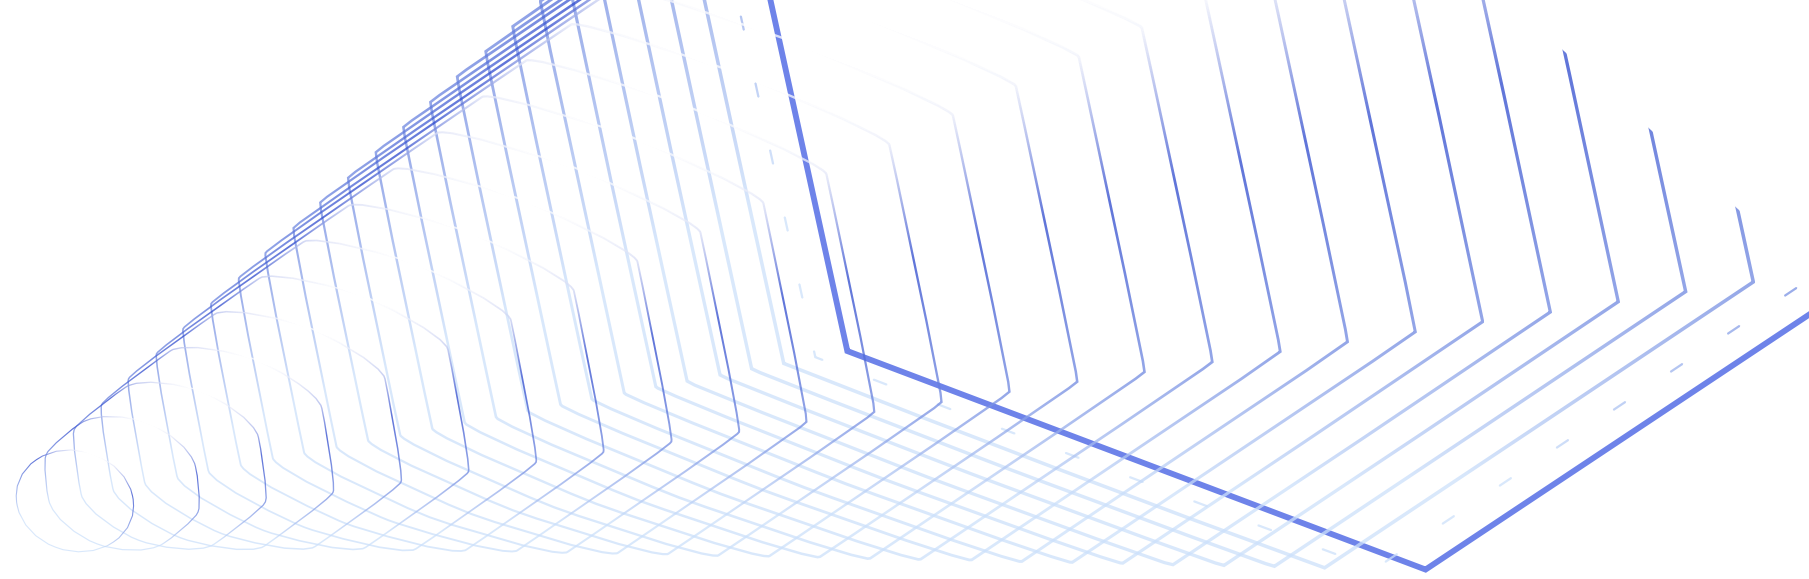

Insights
Use AI and analytic methods such medical clustering, LLM insights, and Generative AI to analyze large datasets to uncover meaningful patterns in big data.

Decisions
Make data-driven decisions faster and more accurately by leveraging automated causality, hypothesis-free signal detection, LLM chats, and other advanced functionality.

LifeSphere® NavaX

The future of digitization in life sciences has arrived. Drive transformative outcomes with LifeSphere NavaX.

The LifeSphere NavaX Advantage

• Tailored to Your Needs
Map your automation journey at your own pace based on your objectives, goals, and timeline, and stay in full control with the ability to activate or deactivate features as needed.

• Seamless Integrations
LifeSphere NavaX seamlessly integrates with other LifeSphere solutions as well as third-party systems to ensure a smooth transition to a more intelligently automated future.

• Highest Standards
Ensure the highest levels of quality and security via robust governance frameworks and compliance standards developed in collaboration with pharmaceutical and regulatory leaders.

• Unmatched Efficiency Gains
Automate routine manual workflows and processes for unmatched end-to-end time and cost savings, including up to 80% efficiency gains on key workflows.

• Rapid Strategic Insights
Make data-driven decisions faster and with greater accuracy by quickly analyzing large data-sets to uncover valuable insights and meaningful patterns.

• Catalyst for Innovation
LifeSphere NavaX brings your organization to the forefront of innovative practices to solve complex challenges and set yourself up for greater future successes.

> "Our vision is to transform the R&D IT ecosystem with advanced technology. NavaX will help global pharmaceutical, biotech, and health authorities achieve greater value leveraging cutting-edge technology. With more than 30 years of experience in the Life Sciences industry, ArisGlobal team will work closely with each customer to unlock exceptional benefits with NavaX."
>
