

Reimagine Regulatory with GenAI Technology Powered by LifeSphere NavaX[®]

Reimagine the value Regulatory can deliver, including up to *50% efficiency gains* using the latest Gen AI and LLM technologies.

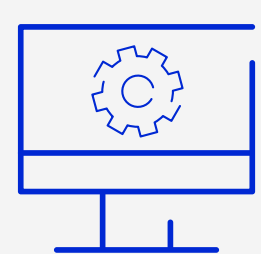

ArisGlobal is reinventing Regulatory with an offering you can't afford to ignore.

Using our LifeSphere cloud-enabled technology suite – including robust Gen AI and LLM features powered by our LifeSphere NavaX cognitive computing engine – we have built the most comprehensive and innovative Regulatory platform in Life Sciences.

LifeSphere Regulatory provides everything you need in a single, interoperable platform that can seamlessly integrate with cross-functional domains and third-party systems, including safety, to bring together your data, content, and processes, and establish a single source of truth across your global operations.

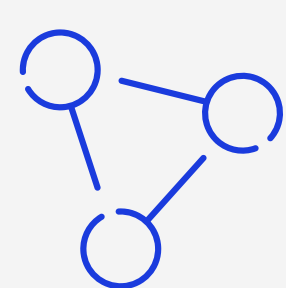

See why LifeSphere Regulatory is not your regular Regulatory.

LifeSphere Regulatory Foundation

Advanced Automation

We place cutting-edge automation capabilities at your fingertips, including Gen AI and LLM support for content ingestion, generation, enhanced insights, and more.

End-to-End Capabilities

Leverage the most comprehensive set of end-to-end regulatory capabilities, delivered via flexible modules that enable you to tailor what you use to fit your specific needs.

User-First Experience

Our technology suite is designed with the user in mind, from our streamlined and easy-to-use interface to our simplified implementation processes.

It's time to reimagine the value Regulatory can deliver.

Unmatched Efficiency Gains

Drive to 50% efficiency gains and save employees hundreds of hours by automating and streamlining key Regulatory workflows.

End-to-End Regulatory

Get everything you need from one provider with the most comprehensive capabilities available, delivered via an interoperable modular approach.

Cutting-Edge Innovation

Stay at the front of Regulatory innovation using the most cutting-edge technologies and intelligent automation, including Gen AI and LLMs.

Ready to rethink how you approach Regulatory? See how LifeSphere Regulatory is redefining how your Regulatory platform can add value to your organization.

Consistent Global Compliance

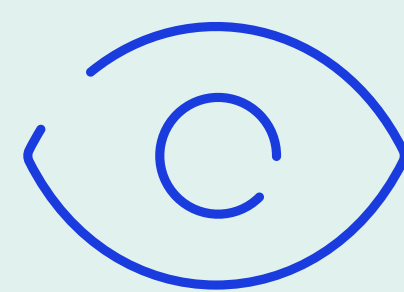

Gain access to the most comprehensive and up-to-date out-of-the-box compliance, as well as real-time transparency into compliance status.

Seamless Interoperability

Ensure data quality and reusability by bringing your global Regulatory data, content, and processes together in a single, unified ecosystem.

Flexibility and Scalability

Tailor your Regulatory platform as your unique needs evolve over time by working with a trusted partner that offers a flexible, modular SaaS approach.
